HAROLD PYON BANKROLLED EXTREME POLITICIANS WHO WOULD OUTLAW ABORTION—EVEN IN CASES OF RAPE AND INCEST

“Texas created a blueprint for abortion restrictions. Republican-controlled states may follow suit.”

“Supreme Court Order on Texas Abortion Ban Shows Threat to Roe v. Wade”

Washington Post, September 2, 2021

After playing political games with women’s health for decades, **Trump Republicans just effectively banned abortion** in Texas with the nation’s most restrictive abortion law.

The new Texas law bans abortion before many women know they’re pregnant, **even in cases of rape and incest**. It also allows private citizens to sue anyone who helps a woman get an abortion—and awards them \$10,000 if they win.

Virginia could be next.

Harold Pyon supports extreme right-wing politicians who want to **criminalize women’s healthcare decisions and defund Planned Parenthood**, making it harder for women to access reproductive healthcare.¹

We can’t trust Harold Pyon with women’s health.
